

Annual Review 2024 of Colorful Life by Ralph Behnke

by S. and R. Behnke 12/2024

January – February 2024 – we are preparing our move to Caslano and are looking forward to the new premises and setting up our new premises.

In the meantime, we are writing various letters to the WHO and the UN and would like to set some points straight. So that Israel is only defending itself after the attack and has the right to self-defense. And to the WHO - that we are against their planned control measures.

We are involved with www.citizen.org and www.patriotpetition.org and are pleased with their successes. There, every citizen can be politically active using a computer and their email address.

Here in Ticino we have found the interdenominational church community without permanent members, www.icf-ticino.ch, and we are very happy about it and can continue to draw new strength from the very top.

We create a list for a person affected that is helpful for multiple sclerosis...you can find it at: <https://colorfullife.ch/gallery/%C3%BCbersichtliche%20Liste%20mit%20erg%C3%A4nzenden%20Mitteln%20bei%20MS.pdf>

We give a person affected by MS tips on where they can get good help in Switzerland and how they can implement this successfully.

We make spontaneous music on the street and some people dance to the gospels with guitar and singing...Comments from the people: There should be more people like this...we need that in this day and age. It is unbelievably beautiful. The drivers driving past wave at us and laugh.

In our correspondence with Ms Keller-Sutter (responsible financial officer in Switzerland) regarding the concern that cash might soon be abolished, we received a response from her personally that this was not planned and that we would continue to have cash despite some changes.

We can forward a list to some people, which contains more than 20 medications that are covered by basic insurance, especially for colds and vitamins. They are very grateful for this.

Other people will receive my wife's book in electronic form: A little more heaven on earth - without complaints.

We will be creating our new homepage towards the end of the year and will make sure that it is available in different languages, at least the important documents for download.

This year, instead of a Christmas poem, we are sending out a free Advent calendar with lots of good ideas and the true meaning of Christmas... and we are receiving some good feedback.

We also compare different vitamin products and pass on our findings to those who are interested. All for the benefit of health. We wish everyone a blessed New Year.
