

Christmas 2024

by S. Behnke 12/2024

We see the lights in the gardens shining all the more,
We are very happy about that.
But to understand what the true reason for enlightenment is,
You should know that, otherwise you will miss the best.

There is a lot of news around us in a difficult time,
But one thing is clear – we need Christmas joy that lasts.
We never stop praying for it.
There is only one who can open the door of the heart.

Then peace could spread....
And the wars would have to give way.
If love had been stronger...
Do we have Christmas in our lives?

Whoever listens attentively to the supernatural peace,
is usually not outraged later.
Wherever you may go...
and maybe your heart complains.

You will never be alone,
Because there is always someone invisible with you – how nice.
It is what everyone wants in life,
There will be a friend as king.

But wealth not in the sense of material possessions,
this is really no joke.
A king who doesn't need a castle,
a simple stable will do just fine.

In his simplicity he is there on earth,
and this story is really true.
Foretold and predicted by astrologers and prophets,
but when they meet the heavenly child – they worship.

Such a great miracle and that in a stable,
Today people are searching everywhere.
People also try to grab wealth,
but most of the time the pockets of the heart remain empty.

How can one direct one's gaze upwards into the sky,
the best thing to do is to get it as a gift...
and do not harden the door of your heart,
You will get real love for it.

The love of Jesus lasts forever,
are you ready for it?
Then don't stay silent but invite him....
And only then will he fully enter your life.

Every day is an adventure then,
yes, something that everyone can experience.
If stones still lie on the way,
His love never fades.

With it you can build bridges out of stones....
And look at life with heavenly eyes.
