Arie Ben Israel born 1950 – 1993 had gained the impression through a supernatural inspiration as a Messianic Jew that Germany should do penance for the laws passed in Nuremberg in 1935 on the persecution of the Jews. To the best of our knowledge, the so-called Nuremberg Laws have not yet been withdrawn internationally by the German government in the media world of television. A letter in reply from Angela Merkel referred to various pro-Israel actions such as the

visit to Yad Vashem from her point of view, it was done because the Allies back then in 1955- took them back on their behalf. In our view there will only be a real restoration when the German government stands by this heavy debt and publicly takes it back to the Jews and Israel and pronounces a blessing and prosperity and peace over Israel.

Arie Ben Israel sat down with various pro-Israel churches and a large gathering was planned and held in Nuremberg itself in 1985.

A total of 6000 - 7000 people from all over the world came to this conference, who also felt that they shared responsibility for this part of the past that had not yet been processed.

More than 10 bomb threats had been received, some from neo-Nazis and some from unknown persons, and the police wanted to close this conference before it could start for security reasons. The police increased the checkpoints and had the right to search bags in case of suspicion - as well as to watch the garbage containers came through the advisory team, everyone was given the okay to run the conference. We thank the police for the thorough and good work and the right to have a say. Everything went smoothly.

Arie Ben Israel also contacted the relevant decision-makers in the then federal government in Germany with his request, who considered it unnecessary and therefore did not want to come and also did not write a withdrawal of the then wrong laws.

We began with songs and a prayer to Jesus and the God of Israel for blessings on the gathering.

A highlight was when a Holocaust survivor and a former Nazi stood face to face and shared their lives openly and forgiven and embraced through the love of Jesus. When this happened, a wind started, which sounded over the microphones as if thousands of horses were on the move (the flags waved loudly in the wind).....when we prayed a joint intercession prayer, it started to rain. It was like heaven was crying. Despite the bad weather, the conference ended with songs and blessings for Israel and Germany and the whole world that we may dwell and live in peace for many years to come.

I myself was there and was surprised that no one came from the government and was very moved by the presence of the Holy Spirit and the love felt through Jesus' forgiveness. Almost everyone had noticed something like this and we were fascinated what a great blessing it is to bless Israel and the whole world - you felt a deep peace inside yourself - as many expressed. I myself was also present at this conference – and part of the advisory team.

To this day, we expect that just as the wrong laws about television were broadcast around the world in the past, that is exactly how it will be taken back. The old, still existing documents from 1935 are publicly destroyed. Whoever attacks the people of Israel attacks the apple of the Creator's eye Zechariah 2:8.

We are of the opinion that if committed Christians and Messianic Jews and other self-confident citizens think critically and want a comprehensible action in a democracy, this should be taken seriously and serve as a role model for the following generations.

Best regards

Sabine Behnke
